

(3) Agencies shall issue directives on using telephone facilities and services. Agencies' contractor-operated facilities shall be covered by these directives. The directives may provide further definition of calls necessary in the interest of the Government and shall include procedures for collection and reimbursement for unauthorized calls.

§ 101-35.202 Collection for unauthorized use.

(a) Agencies shall collect for any unauthorized calls if it is cost-effective to do so. Reimbursing the Government for unauthorized calls does not exempt an employee from appropriate administrative, civil, or criminal action.

(b) Agency collections shall include—

(1) The value of the call, computed on the basis of commercial long distance rates rounded to the nearest dollar; and

(2) An additional amount rounded to the nearest dollar to cover the administrative costs of determining that the call was unauthorized and processing the collection.

Subpart 101-35.3—The Mandatory FTS Long Distance Network

§ 101-35.300 Scope of subpart.

This subpart describes the GSA FTS program and contracts that are mandatory-for-use by agencies.

§ 101-35.301 The mandatory FTS long distance network.

§ 101-35.301-1 General.

(a) In accordance with section 629 of Public Law 104-52, (109 Stat. 468, 504, November 19, 1995), executive agencies must use the FTS long distance network.

(b) GSA will grant exceptions to the use of the FTS long distance network when:

(1) The agency's procurement requirements are unique and cannot be satisfied by the FTS long distance network; and

(2) The agency procurement would be cost-effective and would not adversely affect the cost-effectiveness of the FTS long distance network.

(c) The FTS long distance network provides Federal agencies modern up-

to-date intercity telecommunications services over the life of the program. GSA will enhance existing services and add features to the FTS long distance network to maintain technologically current services and to improve services to user agencies. GSA will make service improvements in accordance with agencies' needs, contract provisions, governing regulations and statutes.

(d) As used in this FPMR, the terms intercity and long distance have the same meaning.

§ 101-35.301-2 Policies.

(a) Executive agencies shall use the FTS long distance network to satisfy intercity telecommunications requirements within the United States, Guam, Puerto Rico, or the Virgin Islands for requirements which are within the scope of the FTS long distance network voice, data, and video services as such services become available unless:

(1) The agency requests and obtains from GSA an exception to the use of the FTS long distance network based on a GSA determination that:

(i) The agency's procurement requirements are unique and cannot be satisfied by the FTS long distance network; and

(ii) The agency procurement would be cost-effective and would not adversely affect the cost-effectiveness of the FTS long distance network;

(2) The agency requests and obtains from GSA an interim exception to the use of the FTS long distance network based on an established date for transition to the FTS long distance network; or

(3) An exception to the use of the FTS long distance network for the agency is otherwise provided by law.

(b) Unless any of the exceptions listed in paragraph (a) of this section apply to the procurement, and when overall procurement requirements include any agency long distance telecommunications requirements which are within the scope of FTS services, executive agencies shall require offerors in new awards to satisfy those requirements by using the Government furnished services of the FTS long distance network as such services become available.
